

# AQUA LUNG® HAZMAT COMMERCIAL

**Military & Professional**

**Premier Drysuit for Contaminated Water Diving**

The HAZMAT Commercial (COM) Drysuit is designed with the professional commercial diver in mind. The HAZMAT COM is equipped with a yoke for use with a diving helmet and provides durability and protection especially during Contaminated Water Diving (CWD) tasks.

Using high-performance chemical and abrasion resistant materials, as well as advanced construction techniques, the HAZMAT COM Drysuit provides two layers of water and chemical protection. All seams are reinforced, stitched, then heat sealed at over 600°C inside and out, producing an extremely durable drysuit. This construction results in a smooth interior and exterior surface which enables easy decontamination of most chemicals.

## Key Features

- Chemical-resistant polyurethane layer inside and out
- Interior and exterior tape welded seams
- Tear and puncture resistant nylon core
- Highest available abrasion resistance
- Attached heavy-duty poly boots
- Permanently attached round wrist rings with replaceable Polytex Pro wrist seals
- Apeks contaminated water (CW) dual exhaust valve
- Apeks standard inflation valve (CW version available)
- Suit is supplied with choice of attached helmet yoke to fit:
  - Kirby Morgan - all models
  - Aqua Lung/Gorski G3000SS
  - Miller, Desco Air hat
- Standard neck seal inside yoke
- Optional convenience zipper
- Optional heavy-duty steel toe and shank boots
- Available in red/black or all black
